

Program on Construction Claims and Mediation in Construction Disputes

7 Days Intensive Weekend Training Program
(2 Days Online, 5 Days Offline)

29th March - 13th April, 2025
Holiday Inn, Aerocity, New Delhi, India

Organized by
Construction Industry Arbitration Council
in Collaboration with
Klaims and Qwantum International

Unique Features of the Program

The CIAC Mediation Program is the first of its kind in India, tailored specifically for the Construction and Infrastructure Industry. It includes two-day online sessions on construction contracts and claims, followed by five days of intensive in-person training on:

Mediation Science, Art, and Skill, including Role Plays.

Participants will be eligible for CIAC empanelment upon further assessment and a prescribed fee.

They will also join an exclusive professional knowledge-sharing group administered by CIAC.

About CIAC

Construction Industry Arbitration Council (CIAC) is an independent, Arbitral Institution dedicated to resolving Construction and Infrastructure Disputes through Institutional Mechanism.

CIAC, as it is popularly known, is the Prime and Prestigious Arbitral Institution in India which specializes in facilitating the resolution of disputes within the infrastructure and construction sectors, ensuring efficient and fair outcomes.

Notably, CIAC holds a special observer status from the United Nations Commission on International Trade Law (UNCITRAL), reflecting its significant role in the global arbitration landscape. Since its establishment in 2006, born from a strategic collaboration between the Construction Industry Development Council (CIDC) and Singapore International Arbitration Council (SIAC), CIAC has curated a robust panel comprising 200 highly qualified independent Arbitrators and Mediators, who bring extensive expertise and impartiality to the resolution process.

About KQI

Klaims and Qwantum International (KQI) is a specialized Construction Law and Legal Services Firm providing consultancy on Construction Claims preparation, Quantum analysis, Delay & Disruption Analysis, Contracts preparation, and Arbitration Counselling Services. KQI offers end-to-end technical and legal solutions to industry players, focusing on dispute avoidance, mitigation, and resolution.

Last Date for Enrolment:

10 February 2025

Seats are limited and enrolment is on a first-come, first-served basis.

Certification

Participants will receive a CIAC Continuing Professional Development certificate.

Program Objectives

Indian Construction Industry plays a major role in the economic growth of the Nation and occupies a pivotal position in the nation's development plans. This industry is the second largest contributor to the GDP in India after agriculture sector.

The primary objective of the CIAC Mediation Program is to equip participants with the knowledge and skills necessary to navigate and resolve disputes in the construction industry effectively. Given the complexity and technical nature of construction disputes, the program emphasizes the importance of alternative dispute resolution mechanisms such as mediation. With the enactment of The Mediation Act, 2023, mediation has become a legally recognized process, further highlighting its significance in resolving high-value disputes efficiently and amicably.

This program is designed to address the unique challenges of construction disputes, fostering a thorough understanding of conflict management, negotiation tactics, and the legal frameworks governing dispute resolution. Participants will gain practical insights into the mediation process, enhancing their ability to facilitate settlements and contribute to the industry's growth by minimizing project delays and cost overruns.
